Availability: Part-time during term, full-time during university holidays.

Profile

Computer games programming student with client-facing experience in a small construction business, where I was the first point of contact for customer calls and correspondence. Comfortable in fast-moving environments, quick to learn new systems, and reliable on the rota. Looking for front of house work alongside my degree.

Experience

Office Assistant, Harris Homes, June 2025 - October 2025

- Acted as first point of contact for client calls and emails, resolving queries directly and escalating where needed.
- Managed the director's diary, booking meetings around site visits and rescheduling at short notice. • Took meeting notes and wrote them up into structured records in Notion, used by the team for tracking projects and scheduling jobs.

Labourer, Harris Homes, June 2026 - Present

- Site work to fixed deadlines, including power tool operation under strict health and safety requirements.
- Coordinated a team of 12 building a game to a fixed module deadline, acting as the communication link between members.
- Tracked who was working on what and followed up where work was slipping, keeping the group moving toward delivery.

Projects

Team Lead, Introduction to Collaborative Enterprise - University of Staffordshire, March 2025 - May 2025

Education

BSc (Hons) Computer Games Programming, University of Staffordshire, September 2024 - Present

Ellesmere College - GCSEs: English 6, Maths 5

Interests

Landscape painting and reading deeply into what currently has my attention - recently neuroscience and how language models work.
